

CALNET II RFP DGS-2053
Question and Answer Set #18
January 4, 2006

82. Does the State expect network-to-network interfaces with ILEC networks if we do not require them for our solution?

No.

83. When the RFP refers to government codes under "General Invoice System Requirements", what are these government codes and where are they located?

These are California State government codes and can be found at <http://www.leginfo.ca.gov> under California Law/Government Code.

84. Can cellular phone services be offered in Module 1?

No.

85. RE: Section 6.1.2.1, Voice Network Design (M), Scalability: Can you clarify the definition of scalability?

This will be addressed in a future addendum.

86. RE: Section 6.1.3, CORE DATA SERVICES (M-O): The Contractor's WAN infrastructure shall support open architecture standards and interfaces for services as identified below. How does the state define open architecture standards and interfaces?

Open architecture standards and interfaces are those commonly used in the industry and defined by standards bodies such as the IEEE and ANSI TIA/EIA.

87. The State has a requirement in 6.3.11: "Examples of fraud that the Contractor should identify, include at a minimum:

1. Message relay (eavesdropping
2. Roaming Fraud"

What does the State mean by "Roaming Fraud"?

This will be addressed in a future addendum.

88. RE: Section 6.1.3.2.5, "Gigabit Ethernet Metropolitan Area Network", does the maximum loss of 29 db apply to the 31 mile distance limitation?

This will be addressed in a future addendum.
